Introduction

The Handmade Collection from Spicer Hallfield offers an extensive selection of subtle or bold cover designs, to reflect the romantic and contemporary wedding styles of today's Bride and Groom. Our albums encompass a wide range of finishes, either soft padded or firmer unpadded covers and include materials from leather to suede style materials and rich fabrics. Intricate details are included in the finishing of our albums, and information can be found in the description next to each design shown on the following pages.

Our Handmade album designs are replicated in a series of different sizes, ensuring that in addition to a main album, further albums can be provided for your family and friends.
